WELCOME FROM THE PRESIDENT

Dear Friends:

This is a momentous day for graduates, families, and the entire UConn community. To our graduates, I offer my warmest and most sincere congratulations on your success and your achievements. Today's commencement exercises are the culmination of your time as a student and the fulfillment of our mission as a university.

I share the pride, excitement, and immeasurable hopes for the future that I know each of you feel today. Your education is a great credit to you, and to us; you exemplify the very best we have to offer as you prepare to enter the next chapter of your lives.

Today, a degree will be conferred upon you from one of this nation's truly great universities. UConn takes great care to ensure that our students are able to receive an education from outstanding faculty on a campus that is home to many exceptional facilities. It is also vital that each of our students experience a thriving campus where as much can be learned and enjoyed outside the classroom as in it.

Whatever your plans for the future may be, I hope that your time here has helped give you the knowledge, experience, and confidence that you will need to excel in every aspect of the life you will lead.

The goal of higher education is not confined to academic achievement alone; it is also intended to draw from within you those essential qualities that make each of us an educated, well-rounded individual – and a good citizen. That is one of the simplest, but most important titles we can merit in life and I know each of you will exemplify it, every day. You are a class – and a generation – who will go on to do extraordinary things.

Please enjoy yourselves today and celebrate the honor and distinction that you have earned. And whatever path you choose, I hope you will always carry with you the very fondest memories of your days here at the University of Connecticut. Remember: you are students today, but Huskies forever.

Congratulations and very best wishes,

COMMENCEMENT NOTES

Commencement Day at the University of Connecticut is a time of ceremony and pageantry, embracing traditions dating back to medieval times.

The University of Connecticut was founded as the Storrs Agricultural School in 1881 when the General Assembly accepted a gift of money and land from Charles and Augustus Storrs, natives of Mansfield. In 1893 when it became a land-grant college and officially opened to women, the name was changed to Storrs Agricultural College. As the mission of the institution grew, its name was changed in 1899 to Connecticut Agricultural College, and in 1933 to the Connecticut State College. At first a small but vigorous college with limited undergraduate offerings in agriculture, home economics and mechanical arts, with the development of a university program it became The University of Connecticut in 1939. The Graduate program began in 1935, and in 1949 the University awarded its first doctoral degrees. The regional campuses were established in 1946 to accommodate the influx of veteran students. Today, the University is made up of fourteen different schools and colleges. Through its administrative Divisions, Institutes, and Centers, the University is a Land Grant and Sea Grant College and a Space Grant Consortium Institution, privileged to serve the citizens of the State of Connecticut, and beyond.

Enormous expansion has taken place over the years together

with increased enrollment. Today, the University has an enrollment of over 32,027 students. At Storrs, there are over 19,324 undergraduates and more than 8,397 graduate students, representing some 109 nations.

This May, the University will award over 9,420 degrees. Of these, approximately 6,511 will be Bachelor's degrees, 1,952 Master's degrees, 156 Juris Doctor degrees, 50 Master of Laws degrees, 95 Doctor of Pharmacy degrees, 43 Doctor of Dental Medicine degrees, 92 Doctor of Medicine degrees, 9 Doctor of Musical Arts degrees, 15 Doctor of Audiology, 4 Doctor of Education degrees, 7 Doctor of Nursing Practice degrees, 24 Doctor of Physical Therapy degrees, and 378 Doctor of Philosophy degrees. Also to be awarded are 53 diplomas in Professional Education and 31 Associate's degrees in the two-year Ratcliffe Hicks School of Agriculture.

The Commencement Ceremony, because of the large number of graduates, is divided into separate exercises, by college or school. The Schools of Dental Medicine and Medicine, located in Farmington, and the School of Law, located in Hartford, hold their own exercises. The Commencement procession in each of the exercises at Gampel Pavilion in Storrs is heralded by the ceremonial trumpets, acquired especially for the University's commencement.

The Academic Procession is led by the Bearer of the Mace, followed by the faculty. The University Marshal, identified by her Baton, follows the President, together with the speaker, the Board of Trustees, vice-presidents, deans, and other University officials. The Mace is presented at the center of the stage while members of the platform party enter and take their places. Once the Mace is placed on the stand, it signals the beginning of the ceremony.

The Academic Gowns, Hoods and Regalia represent more than elegance or colorful attire. Academic caps and gowns continue a tradition which reaches far back into the early days of the oldest universities of the Middle Ages. The early European universities were founded by the church; the students, being clerics, were obliged to wear prescribed gowns and caps at all times. Caps and gowns were once common forms of clothing and were retained by the clergy when the laity adopted more modern dress. Though some universities here and abroad have other colors, the usual color for gowns in America is black. Hoods are lined with the official color of the college or university which conferred the degree. The velvet edging of the hood varies in length for bachelors, masters, and doctoral degrees. The color represents the appropriate degree. Mortar boards (caps) are usually black. The tassel for the Bachelor's and Master's degree may be of color distinctive to the degree, and the tassel for the doctoral degree may be made of gold thread. The gown and hood of the University Marshal were made specifically for University ceremonies in the official colors of national flag blue and white. The Processional Marshals wear blue velvet "beefeater" berets.

The Mace is presented at all academic ceremonies. In medieval times maces were weapons of warfare, but today a mace is "a staff borne by, or carried before, a magistrate or other dignitary as an ensign of his authority." It is the emblem and symbol of the President's authority to administer the University. This mace was first used at the Inauguration of President Homer D. Babbidge, Jr. on October 20, 1962. It was designed by Nathan Knobler, former head of the Department of Art. The University's early seal, executed in beautiful wood carving, appears on both faces. A penny dated 1881 is affixed to it, to commemorate the date of the University's founding.

The Baton, carried by the University Marshal, was specifically designed for ceremonial activities at The University of Connecticut and was first used at the Commencement in 1968. The Office of Marshal can also be traced back to the medieval period, and the Baton is a symbol of the Marshal's authority. This Baton has silver mountings and is surmounted by a representation of the University's former seal in enamel, which

itself incorporates the coat of arms of the State of Connecticut. The University Marshal, carrying the Baton, follows the Mace Bearer as he leads the academic procession into and out of the place of ceremony.

The Silver Collar/Medallion, worn by Susan Herbst, President, was first used in 1964, at the time of the University's Silver Anniversary. Each link on the collar represents one of the University's Schools or Colleges and consists of a cloisonné circle engraved with an appropriate design for the particular school and enameled with its traditional school or college colors. Hanging from the chain is a large silver medallion containing the University's early seal.

The Awarding of Degrees at the University of Connecticut is accomplished by a twofold process. First, the candidates for degrees of each respective school or college are presented by the University Marshal. The candidates proceed to the front, receive their diplomas, are congratulated by their administrative officers and return to their seats. The School or College Marshal then officially presents the candidates to the Dean who acknowledges the candidates and declares the appropriate degree. Second, when all candidates have been duly presented, the President of the University formally confers the appropriate degree. This is accomplished verbally at the time that she speaks the words:

"By virtue of the authority vested in me by the Trustees of The University of Connecticut, and in accordance with the procedures and regulations of the University, I confer upon you the Associate's Degree, appropriate Bachelor's Degree, Master's Degree, or degree of Doctor for which you have been presented at this One Hundred and Thirty-Eighth Commencement of The University."

The Recessional of the officials and faculty is once again led by the Mace Bearer and University Marshal. The graduates, along with the audience, are requested to remain seated until the recessional is concluded.

Out of respect and courtesy to all graduates, participants and guests are requested to remain in their seats until the ceremony is concluded.

The flowers displayed during the ceremonies are from the University's Plant Science and Landscape Architecture Department greenhouses.

ACADEMIC HONORS

University Scholar

The University Scholar designation is the highest scholastic honor at the University. The individualized undergraduate programs of these students, which in some cases include work toward a graduate degree, are supervised by faculty committees. Up to thirty students are selected as University Scholars in the junior year. Candidates for the University Scholar designation wear medals on gold and blue ribbons at the Commencement exercises.

Honors Scholar

Honors Scholars are outstanding students who complete intensive two- or four-year programs, including Honors courses of unusual breadth and depth. Honors requirements include a senior thesis in the major field. Candidates for the Honors Scholar designation wear medals on blue and white ribbons at the Commencement exercises.

Please Note: An asterisk () after a graduate's name indicates that they are a candidate for dual degrees.*

SCHOOL OF ENGINEERING COMMENCEMENT SPEAKER AND HONORARY DEGREE RECIPIENT

Dr. J. Michael McQuade

Dr. J. Michael McQuade is Senior Vice President, Science and Technology at United Technologies Corporation (UTC), a global leader in the aerospace and commercial buildings marketplace. He provides strategic oversight and guidance for research, engineering and development across UTC's business units and United Technologies Research Center, the company's innovation engine.

In addition to his leadership role at one of the world's most prominent technology and manufacturing companies, Dr. McQuade has a longstanding commitment to public service, helping to shape the future of science, technology, and engineering through numerous university and governmental advisory boards. As a member of President Obama's Council of Advisors on Science and Technology, Dr. McQuade helped focus, shape and communicate basic and applied research policy for the country. He served on the Secretary of Energy's Advisory Board, providing guidance and advice for basic science research and the country's energy future. He is currently a member of the Defense Innovation Advisory Board, where he helps bring technological and cultural innovations from the private sector to the United States military. As a testament to his dedication to education, Dr. McQuade is also a

member of the Board of Trustees of Carnegie Mellon University and Miss Porter's School.

Dr. McQuade began his professional career at 3M focused on research and development of high-end acquisition, processing and display systems for health care, industrial imaging and remote sensing. Transitioning to general management, he served as president of Eastman Kodak's Health Imaging Business before returning to 3M. Prior to joining UTC in 2006, Dr. McQuade served as Vice President of 3M's Medical Division.

Dr. McQuade earned B.S., M.S. and Ph.D. degrees in Physics from Carnegie Mellon University. His Ph.D. research, performed at the Fermi National Accelerator Laboratory, was in experimental high-energy physics for research on charm quark production.

The University's honorary degrees are to be bestowed in "recognition of extraordinary and lasting distinction," representing the "highest intellectual and moral values." Dr. McQuade's outstanding work, service to our nation, and dedication to education serve as a sterling example our students can strive to follow.

SCHOOL OF NURSING COMMENCEMENT SPEAKER

Susan B. Frampton, Ph.D.

Susan Frampton is the President of Planetree International, a non-profit advocacy and membership organization working with healthcare provider organizations in 22 countries to implement comprehensive person-centered models of care. Dr. Frampton, a medical anthropologist and graduate of the University of Connecticut (1990), has authored numerous publications, including three editions of *Putting Patients First* (Jossey-Bass 2004, 2008, 2013), an opinion piece on patient engagement in research published in the *Journal of the American College of Radiology* in December 2016, served as lead author on the National Academy of Medicine's *Harnessing Evidence and Experience to Change Culture* released in January of 2017, and an invited series on patient-centered care in the *American Journal of Nursing* in 2009-2010. Dr. Frampton

chaired the National Academy of Medicine's Scientific Advisory Panel on the Evidence Base for Patient-Centered Care in 2016, and currently chairs the National Quality Forum's National Quality Partners Leadership Consortium. She has served as co-chair of several NQF Action Teams on Advanced Illness Care, Patient-Family Engagement, and Hospital (Re)Admissions. She serves as vice-chair of the Governing Board for the WHO-CC International Network of Health Promoting Hospitals, and on the editorial board for the *Journal of Compassionate Healthcare*. In addition to speaking internationally on culture change, quality, safety, and the patient experience, she was honored in 2009, when she was named one of "20 People who Make Healthcare Better" by *Health Leaders Magazine*.

DOCTOR OF PHARMACY COMMENCEMENT SPEAKER

Christopher R. Fortier, Pharm.D. '03

Christopher Fortier is the chief pharmacy officer at the Massachusetts General Hospital in Boston, Massachusetts. Dr. Fortier received his bachelors degree in pharmaceutical sciences in 2001 and his Doctor of Pharmacy degree from the University of Connecticut in 2003. Following graduation he completed both a PGY-1 Practice Residency and a PGY-2 Health-System Pharmacy Administration Residency at the Medical University of South Carolina Medical Center in Charleston, South Carolina. After completing residency he stayed on at MUSC as an assistant director of pharmacy for 8 years before moving to Mass General.

At Mass General, Fortier oversees a staff of over 400 pharmacists and pharmacy technicians and is responsible for an annual budget of \$350 million. He leads all inpatient, ambulatory, and outpatient pharmacy services across the organization both on the main and satellite campuses across the Boston-metro area.

Fortier has given over 70 invited presentations taking him across the country and to international destinations such as Japan and the Middle East. He has published over 20 articles in pharmacy and medical journals, three book chapters, and 20

research abstracts. Additionally, he serves as an adjunct associate professor at the University of Connecticut School of Pharmacy, Northeastern University School of Pharmacy, and the Massachusetts College of Pharmacy. He is heavily involved in the American Society of Health-Systems Pharmacists sitting on numerous committees and is currently an active member of the University of Connecticut School of Pharmacy Advisory Board.

While at UConn, Fortier served as ASP Chapter president, was inducted into the Phi Lambda Sigma pharmacy leadership fraternity, and was an active member of AZO professional pharmacy fraternity and the Connecticut Pharmacists Association. He also had the opportunity to conduct independent study research with C. Michael White which resulted in two publications before graduation. An avid Husky basketball and sports fan, he worked for the UConn Athletic Department as a football student manager for 5 years.

Finally, in 2013 Fortier was recognized as a fellow of ASHP and in 2008 received the ASHP New Practitioner Forum's Distinguished Service Award. In 2013, he received the Tradition of Excellence Award from the University of Connecticut Alumni Association an award of which he is most proud.

SCHOOL OF PHARMACY COMMENCEMENT SPEAKER

James Sarigianis, '82

James Sarigianis is a graduate of the University of Connecticut School of Pharmacy's Class of 1982. After completing a general practice residency at Rhode Island Hospital, he pursued a clinical pharmacist position at Yale New Haven Hospital (YNHH) and has been employed there since 1983.

In his early years at YNHH Sarigianis was responsible for the planning and implementation of the institution's first formal ordering process for chemotherapy, as well as in designing a centralized chemotherapy preparation area in the pharmacy. He later transitioned to a focus in cardiology, part of which involved participating in a formal multidisciplinary cardiac rehabilitation teaching program.

In his current role at YNHH, Sarigianis oversees the pharmacotherapy of patients in the nephrology and hemodialysis units, in general internal medicine units, and he works closely with physicians on a variety of teaching services.

Sarigianis began precepting pharmacy students in 1994. Although he has precepted students from a variety of schools across the country, the far majority have been UConn students. He has also precepted pharmacy residents since 1999, when the YNHH pharmacy residency program was resurrected. He

has served on the YNHH Pharmacy Residency Advisory Board since 2010.

Sarigianis holds adjunct faculty appointments for the schools of pharmacy of the University of Connecticut and the University of Rhode Island. He established and co-chairs the annual "Brian E. Miller Memorial Lecture," in memory of a former YNHH pharmacist colleague and friend. Most recently, he was instrumental in establishing the Yale New Haven Hospital, Department of Pharmacy, "Brian E. Miller Endowment for Pharmacy Education."

Jim is the recipient of numerous awards and honors, some of which include:

- "Preceptor of the Year" by the University of Connecticut School of Pharmacy in 2006
- "Pharmacist of the Year" by the Connecticut Society of Health System Pharmacists in 2009
- "Paul G. Pierpaoli Award" by the Connecticut Society of Health System pharmacists in 2015
- "Master Preceptor" by the American Association of Colleges of Pharmacy in 2015 (nominated by, and representing, the UConn School of Pharmacy)

Thomas J. Loughman, Ph.D.

Thomas J. Loughman is the Director and Chief Executive Officer at the Wadsworth Atheneum Museum of Art in Hartford, Connecticut. He assumed the role of the 11th Director at the Wadsworth Atheneum in February 2016, just months after the institution completed a major renovation. Previously, he served as the Associate Director at Clark Art Institute in Williamstown, Massachusetts, (2008-2016) as well as in a variety of curatorial, research and teaching roles in the field.

Dr. Loughman is a scholar of Italian art and has lectured and published particularly on the art, architecture, patronage, and urbanism in early Renaissance Florence. Additionally, he has contributed to numerous exhibition catalogues on artists as diverse as Claude Monet, Jean-Leon Gérôme, Jusepe de Ribera,

and Nicolas Poussin. As a curator, he has spearheaded a number of projects highlighting Baroque art in Naples, printmaking in twentieth century Philadelphia, a focus on sculptors as draftsmen, ancient bronzes from China, as well as the global tour of the Clark's core collection. Other initiatives have focused on creating a corpus of early Italian paintings and the American Southwest, a course on Giotto Di Bondone, and an exhibition and related catalogue examining Sterling Clark's career as a military officer and explorer in late Imperial China.

Dr. Loughman earned his AB from Georgetown University where he was a George F Baker Scholar; the MA from Williams College; and PhD from Rutgers University, where he was a Fulbright Scholar and a Kress Fellow. He lives in the Hartford area with his wife and two daughters.

Chef David Bouley

David Bouley was born and raised near Storrs, Connecticut, and was strongly influenced by life on his grandparents' farm. Their French heritage instilled in him love of the land, appreciation for fresh products, care in preparation, and inspiration to cook and enjoy healthful meals. David studied at the Sorbonne and worked with some of Europe's most acclaimed chefs. In 1987 he opened his own restaurant, Bouley, which quickly became known as the most notable dining experience in New York.

His accolades include a four-star review in *The New York Times* and the James Beard Foundation awards for Best Restaurant and Best Chef. The *Herald Tribune* featured a story on his focus to bring healthier cooking to New York involving an emphasis on food source selection and lighter cuisine; this won him a "Best Chef in America" article. In 2015, Mr. Bouley was awarded the "The Best Restaurant in the United States" from TripAdvisor's Traveler's Choice Awards and a #14 ranking in the world.

Dedicated to the well-being and happiness of his guests, Chef Bouley is one of the only chefs in America who personalizes each meal to his customers' likes and desires, with a strong commitment to diners with health interests—particularly those with autoimmune concerns. This approach has won him a lifetime achievement award from Dr. Peter Green of the Celiac Disease Center at Columbia University, and a lifetime achievement award from Dr. Barry Smith, president of the Rogosin Institute and Professor of Clinical Surgery at Weill

Cornell Medical College. In 2015, Chef Bouley received the Gohan Society's "Washoku Ambassador Award" from the Japanese Ministry of Agriculture, Forestry and Fisheries. He was the only non-Japanese recipient until then and he was recognized for exemplifying the spirit of Washoku, "harmony of food," which is associated with a respect for nature and sustainable use of natural resources.

Chef Bouley's platform to introduce a different level of health in food is Bouley Botanical. At Bouley Botanical, guests are surrounded by over 400 edible and biodynamic plants and herbs used in his restaurants. In 2013, *The Chef & The Doctor* series began at Bouley Botanical as a collaborative lecture and dinner series hosted by Chef Bouley and world-renowned doctors and nutritionists. His latest project is a book, *Living Pantry*, which will teach readers how to create a simple list of food ingredient building blocks that will expedite meal preparation while ensuring nutrient-dense and tasteful meals. His goal is to help people realize they do not need hours to execute quick, satisfying and healthy meals.

He wants to inspire consumers to have a living pantry in their homes. Bouley Restaurant is now celebrating its 30th year. In his more than 40-year career, Chef Bouley has cooked for everyone from kings and queens, to the average Joe, and every person has left his dining room or event having had a meal they remember for the rest of their lives because of his respect for the true rewards of Mother Nature's gifts.

Through his incredible acumen and leadership, Douglas Elliot has an impressive career as one of the top leaders in the insurance industry. Currently, he is president of The Hartford, a 200-year-old national leader in property and casualty insurance, group benefits and mutual funds. In this role, he has oversight for all of the company's Property & Casualty (P&C) lines of business, in addition to Group Benefits and Claims. He has been responsible for P&C Commercial and Group Benefits since joining the company in April 2011 and was promoted to president in July 2014, adding oversight of Personal Lines to his role.

Before joining The Hartford, Mr. Elliot served as president of Hartford Steam Boiler and senior advisor with Aspen Insurance Holdings. He began his career in the public accounting field

before joining Travelers in 1987, where he advanced through a series of positions of increasing responsibility, eventually becoming Chief Operating Officer.

Mr. Elliot earned his bachelor's degree in accounting from the University of Connecticut in 1982. He is a graduate of the Wharton School of Business insurance executive program, which he attended in 1992. He currently serves as Chairman of the Board of Hartford Hospital, and offers his expertise on the School of Business Accounting Department Advisory Council. In addition, he is past chairperson of the MetroHartford Alliance IFS Cluster, as well as the Central and Northeastern Connecticut United Way Campaign. From 2007 to 2012, he served on the UConn Foundation Board of Directors.

Lynda Mullaly Hunt '88, '97

Lynda Mullaly Hunt is a *New York Times* best-selling children's author who began her career as a third-grade teacher in Hebron, Conn. Mullaly Hunt's books have appeared on 36 state award lists thus far.

Mullaly Hunt's first novel, *One for the Murphys*, released in 2012, was a winner of the 2010 Tassy Walden Award for New Voices in Children's Literature, an American Booksellers Association New Voices Pick for 2012, a 2012 Nerdy Book Award winner, and an Editor's Choice Book with Scholastic Book Clubs. It has been released in five languages.

Her second novel, *Fish in a Tree*, published in 2015, was selected as a 2016 American Library Association Schneider Family Book Award winner and as a 2016 Notable Book by the Association for Library Service to Children. In addition, it was a Global Read Aloud Choice for 2015, a *School Library Journal*

Best Book for 2015, and a 2015 Nerdy Book Award winner. It has been released in 15 languages and is being adapted as a stage show in New York City.

Mullaly Hunt travels extensively to speak with teachers, librarians, and students across the country about the writing process and the importance of resilience. In addition to being a former teacher, she served as a scenario writing coach for the Future Problem Solving Program International. For 12 years, she also served as director of the New England Society of Children's Book Writers and Illustrators Whispering Pines Writers' Retreat.

Mullaly Hunt earned her bachelor's and master's degrees in elementary education in 1988 and 1997, respectively, from the Neag School of Education at the University of Connecticut.

J. Craig Venter, Ph.D.

J. Craig Venter, Ph.D., is regarded as one of the leading scientists of the 21st century for his numerous invaluable contributions to genomic research. He is Co-Founder, Executive Chairman, Head of Scientific Strategy at Human Longevity, Inc. (HLI), the genomic-based, health intelligence company empowering proactive healthcare.

In addition to his role at HLI, Dr. Venter is Founder, Chairman, and CEO of the J. Craig Venter Institute (JCVI), a not-for-profit, research organization with approximately 200 scientists and staff dedicated to human, microbial, plant, synthetic and environmental genomic research, and the exploration of social and ethical issues in genomics.

Dr. Venter also is Co-Founder, Chairman and Co-Chief Scientist of Synthetic Genomics, Inc. (SGI), a privately held company developing products and solutions including sustainable bio-fuels, vaccines, biotherapeutics and transplantable organs.

Dr. Venter began his formal education after a tour of duty as a Navy Corpsman in Vietnam from 1967 to 1968. After earning both a Bachelor's degree in Biochemistry and a Ph.D. in Physiology and Pharmacology from the University of California at San Diego, he was appointed professor at the State University of New York at Buffalo and the Roswell Park Cancer Institute. In 1984, he moved to the National Institutes of Health campus where he developed Expressed Sequence Tags or ESTs, a revolutionary new strategy for rapid gene discovery.

In 1992 Dr. Venter founded The Institute for Genomic Research (TIGR, now part of JCVI), a not-for-profit research institute,

where in 1995 he and his team decoded the genome of the first free-living organism, the bacterium *Haemophilus influenzae*, using his new whole genome shotgun technique.

In 1998, Dr. Venter founded Celera Genomics to sequence the human genome using new tools and techniques he and his team developed. This research culminated with the February 2001 publication of the human genome in the journal, *Science*. He and his team at Celera also sequenced the fruit fly, mouse and rat genomes.

Dr. Venter and his team at JCVI continue to blaze new trails in genomics. They have sequenced and analyzed hundreds of genomes, and have published numerous important papers covering such areas as environmental genomics, the first complete diploid human genome, and the groundbreaking advance in creating the first self-replicating bacterial cell constructed entirely with synthetic DNA.

Dr. Venter is one of the most frequently cited scientists, and the author of more than 280 research articles. He is also the recipient of numerous honorary degrees, public honors, and scientific awards, including the 2008 United States National Medal of Science, the 2002 Gairdner Foundation International Award, the 2001 Paul Ehrlich and Ludwig Darmstaedter Prize and the King Faisal International Award for Science. Dr. Venter is a member of numerous prestigious scientific organizations including the National Academy of Sciences, the American Academy of Arts and Sciences, and the American Society for Microbiology.

THE GRADUATE SCHOOL COMMENCEMENT SPEAKER (DOCTORAL CEREMONY)

Takiyah D. Harper-Shipman

Dr. Takiyah D. Harper-Shipman recently completed all requirements to receive her Ph.D. in Political Science, with an emphasis on Comparative Politics and International Relations. Her dissertation, "What's Left to Own?: Moving Beyond Ownership Development in Aid-dependent Africa"

examined questions of foreign aid and power in postcolonial Africa. Her larger research interests include international development, African political economy, and postcolonial theory. In her spare time, Dr. Harper-Shipman enjoys biking, gardening, and cooking.

The Edward C. Marth Mentorship Award

The UConn AAUP established the Edward C. Marth Mentorship Award to recognize the leadership and dedication of Edward Marth, former Executive Director of the UConn AAUP Chapter, and to encourage and reward outstanding mentoring of graduate students by UConn Graduate Faculty members. Recipients have had direct and significant impact and involvement with graduate students, outstanding commitment and effectiveness as a mentor of graduate students, and have demonstrated unusual effort to provide consistent mentoring of graduate students during the course of their careers at UConn. Recipients of the Edward C. Marth Mentorship Award are

UConn Graduate Faculty members who have extraordinary records of excellence and effectiveness in activities such as facilitating smooth transitions for both entering and exiting graduate students; showing sensitivity to students' academic, personal, and professional goals and needs; being accessible to students; playing an active role in coaching graduate students through the graduate school experience and connecting them to appropriate intellectual and professional networks; and, guiding graduate students toward intellectual and professional independence.

Joan Argetsinger Steitz, Ph.D.

As a college student in the 1960s, Joan Steitz never imagined herself as a top-flight scientist. Certainly, she was fascinated by science. She even assisted senior scientists in laboratories at the Massachusetts Institute of Technology, where she was befriended by James D. Watson, co-discoverer of the DNA double helix, and at the Max Planck Institute in Germany. But when it came time to choose a career path, she had never seen a female professor or head of lab. So, she never aspired to such goals.

Today, Dr. Steitz is a Sterling Professor of Molecular Biophysics and Biochemistry at Yale University, and one of the leading scientists in her field. She is best known for her pioneering work in RNA. She and her student Michael Lerner discovered and defined the function of small ribonucleoproteins (snRNPs) in pre-messenger RNA—the earliest product of DNA transcription—and was the first to learn that these cellular complexes (snRNPs) play a key role in processing messenger RNA by excising noncoding regions and splicing together the resulting segments. Her breakthroughs into the previously mysterious splicing process have clarified the science behind the formation of proteins and other biological processes, including the intricate changes that occur as the immune system and brain develop. Because of this, her research has played a key role in improving the diagnosis and treatment of autoimmune diseases.

Dr. Steitz earned her Ph.D. from Harvard in 1967. After completing

postdoctoral work in Cambridge, England, she joined the Department of Molecular Biophysics and Biochemistry at Yale as an assistant professor and later became an associate and full professor, as well as chair of the department.

An Investigator in the Howard Hughes Medical Institute at Yale, Dr. Steitz has published nearly 300 manuscripts, many in the highest-tier journals such as *Science*, *Cell* and *Proceedings of the National Academy of Science*. Her research has been funded by the National Institutes of Health for over 40 years. Currently, she serves as an associate editor for *RNA* and the *Journal of Cell Biology* and a member of the editorial board for *Genes and Development*.

Dr. Steitz has been honored over her career with many prestigious awards and is a member of the National Academy of Sciences, the Institute of Medicine, and a fellow of the American Association for the Advancement of Science and the American Academy of Microbiology.

In addition to her stature as a world-renowned molecular biologist, Dr. Steitz is highly regarded for her excellence as a teacher, a mentor of graduate students and postdoctoral fellows and a staunch advocate of women in science. Dr. Steitz is also recognized as a leader in the state of Connecticut. She has been inducted into the Connecticut Women's Hall of Fame and received the Connecticut Medal of Science.

UNIVERSITY OF CONNECTICUT

BOARD OF DIRECTORS FACULTY RECOGNITION AWARD RECIPIENT

Howard Tennen, Ph.D.

UConn Health's Board of Directors has named Howard Tennen, Ph.D., the 2017 winner of its Faculty Recognition Award. Dr. Tennen, a Board of Trustees Distinguished Professor in the Departments of Community Medicine and Health Care and Psychiatry, joined the UConn Health faculty 39 years ago. He is being recognized as an award-winning educator, an esteemed clinician, a prolific investigator, and a faculty leader. "Any contributions I've made to our institutional missions reflect the work of my many superb research collaborators, dedicated committee colleagues, and very talented students over the years. I consider myself most fortunate, says Dr. Tennen."

Dean of the UConn School of Medicine, Dr. Bruce Liang, says "Howard is a model of educational excellence. He created a nationally accredited psychology internship, and through the Masters in Clinical and Translational Research Program, he has trained fellows and junior faculty for careers in academic medicine. He has also received many teaching awards and has been invited to serve as our commencement and convocation speaker multiple times." Dr. Liang also cites Tennen's leadership qualities. "Howard's administrative-service contributions are unsurpassed. He has chaired or served on nearly 50 major UConn Health committees. As the chair of the School of Medicine's Senior Appointments and Promotions Committee, he contributed significantly to bylaws revisions, the expansion of new pathways to promotion, and the development of post-tenure review."

As a clinician, Dr. Tennen developed and for 20 years directed Psychological Testing Service, in which he provided highly valued treatment recommendations for some of the most challenging patients. His Diagnostic Evaluation Service in Psychiatry ensured the highest quality care while training residents in best practices. Having authored over 375 journal articles and chapters, Dr. Tennen is a well-respected investigator. He's published pioneering studies examining the daily dynamics of stress and health, and has served on more than 20 journal editorial and scientific advisory boards. Since 1991, he has been the editor of the *Journal of Personality*, a leading journal in his field. Dr. Tennen has received numerous national awards including the Clifford M. Clarke Science Award from the National Arthritis Foundation and a career award from the American Psychological Association for Outstanding Contributions to Health Psychology. "Having my scholarly contributions recognized by others working in my field has been gratifying," notes Dr. Tennen. "Yet receiving this award right here at UConn Health, where I've spent nearly my entire adult life, is particularly meaningful and rewarding."

Dr. Tennen received his Ph.D. from the University of Massachusetts and completed an internship in clinical psychology at the UCLA Neuropsychiatric Institute. He was on the psychology faculty at the State University of New York at Albany from 1975-1978, and he has been a member of the University of Connecticut School of Medicine faculty in Community Medicine and Psychiatry since 1978.

THE GRADUATE SCHOOL

The parenthetical indication of a conferral date following a degree recipient's name signifies confirmed completion of degree requirements. If no conferral date is indicated, completion of degree requirements could not be confirmed at press time. Conferral of a degree is contingent upon verification by the Graduate School that a student has completed all requirements.

ARMED SERVICES COMMISSION

Each year, the President of the United States, through the Secretary of Defense, grants commissions to Connecticut students in the Regular Service and in the Reserve Components.

Air Force Reserve Officer Training Corps

The following have received a commission as Second Lieutenants through the Air Force ROTC program at the University of Connecticut.

EVAN PETER AMATO <i>University of Connecticut Financial Management Officer</i>	KAELYN BRENNIA HUIZENGA <i>Central Connecticut State University Cyberspace Operations Officer</i>	*KYLE PATRICK SULLIVAN <i>University of Connecticut Pilot</i>
THOMAS ALESSANDRO CARUSO <i>University of Connecticut Nuclear and Missiles Operations Officer</i>	SHANE ALEXANDER KNOWLES <i>University of Connecticut Nuclear and Missiles Operations Officer</i>	ILIANA ESTER YOUNG <i>University of Connecticut Intelligence Operations Officer</i>
JARED CONNOR DADDARIO <i>University of Connecticut Space Operations Officer</i>	LAUREN JESSICA McNEVINS <i>University of Connecticut Space Operations Officer</i>	*Distinguished Graduate

Army Reserve Officer Training Corps

Second Lieutenants, Active Duty, National Guard, U.S. Army Reserve

PAUL MARK ALBRECHT <i>University of New Haven Military Police Corps</i>	JAMES TAYLOR GILLEN <i>University of Connecticut Infantry</i>	SYDNEY LYNN SANDERS <i>University of Connecticut Adjutant General's Corps</i>
DOMINIC RAYMOND ANTONELLI <i>University of New Haven Military Intelligence</i>	*DYLAN THOMAS JONES <i>**University of New Haven Signal Corps</i>	*BENJAMIN STEVEN SANTANDREU <i>**University of New Haven Military Police Corps</i>
GRANT JOSEPH ARNOLD <i>University of Connecticut Aviation Corps</i>	*EDMUND JOSEPH KLEIN <i>University of Connecticut Adjutant General's Corps</i>	*MICHAEL JOSEPH SANTOS <i>**University of Connecticut Infantry</i>
ROBERT TIMOTHY BLUNDON <i>University of New Haven Military Police Corps</i>	*DIANA LEE MINER <i>**University of Connecticut Medical Service Corps</i>	COTY CURREN SCHAPPERT <i>University of New Haven Corps of Engineers</i>
BRADY CHRISTOPHER BROWN <i>Southern Connecticut State University Transportation Corps</i>	JENNIFER ELIZABETH MITTON <i>University of Connecticut To be assigned</i>	MICHAEL FRANCIS ZACHARIA SCILIANO <i>University of New Haven Military Intelligence</i>
COURTNEY ANN COMBS <i>Eastern Connecticut State University Aviation Corps</i>	*PAUL JAMES MURPHY <i>University of Connecticut Corps of Engineers</i>	NASTASSIA JONEL SMITH <i>University of Connecticut Adjutant General's Corps</i>
COLE ANTHONY DEDONATO <i>University of Connecticut Signal Corps</i>	JUSTIN EDWARD PRATTE <i>University of Connecticut Medical Service Corps</i>	*JACOB ALAN SYLVESTRE <i>**University of New Haven Military Intelligence</i>
JORDAN LYNN DITULLIO <i>University of New Haven Military Intelligence</i>	LEEANDRE MILVA RICHARDS <i>University of New Haven Medical Service Corps</i>	JAMES EDWARD TURCOTTE <i>University of Connecticut Infantry</i>
*DIEGO ALEJANDRO ESPITIA <i>**Yale University Infantry</i>	DARIUS MATTHEW RIVERA <i>University of New Haven Ordnance Corps</i>	MARK EDWARD WHEELER <i>University of New Haven Armor</i>
*TIMOTHY JAMES GAVIN <i>**Yale University Finance Corps</i>	GREGG WESLEY RODER <i>University of Connecticut Infantry</i>	*Distinguished Military Student **Distinguished Military Graduate

The official seal of the University of Connecticut depicts the ancient and mighty oak. Beautiful and sacred, the venerable oak symbolizes wisdom, longevity and hospitality. To Aristotle, the oak represented human potential.

The oak holds a special place in Connecticut's history. In a time long before statehood, the Connecticut colony's self-governing status was guaranteed by a charter issued by King Charles II of England. When, in 1687, his successor King James II attempted to reinstate the monarchy's authority, the Crown's emissary's efforts were foiled as the Royal Charter was secretly spirited to a temporary hiding place—a majestic oak in Hartford, forever after known as the Charter Oak. The oak became a symbol of freedom worldwide.

The oak has unique meaning for the University as well. In 1884, the commencement exercises of the second graduating

class of the Storrs Agricultural School were held in an oak grove on the Storrs campus. This grove, long a favorite gathering place for a variety of open-air meetings, served as the spiritual home to the growing community of scholars.

The University of Connecticut's graphic interpretation of the oak is a stylized synthesis of two acorns and three oak leaves, representing maturation, intellect and moral strength. The seal is the symbol of a large and diverse institution; it is used by all of the University's schools, colleges, regional campuses, professional schools and UConn Health. It communicates the broader mission of the University as a center for the pursuit, the creation, and the sharing of knowledge. The University of Connecticut, like the mighty oak, is rooted in a proud past and reaches toward a limitless future.
