WELCOME FROM THE PRESIDENT

Dear Friends:

This is a momentous day for graduates, families, and all of UConn Nation. To our graduates, I offer my warmest and most sincere congratulations on your success and your achievements. Today's commencement exercises are the culmination of your time as a student and the fulfillment of one of our most important missions as a university.

I share the pride, excitement and immeasurable hopes for the future that I know each of you feel today. Your education is a great credit to you, and to UConn; you exemplify the very best we have to offer as you prepare to begin the next chapter of your lives.

Today, a degree will be conferred upon you from one of this nation's truly great universities. UConn takes great care to ensure that our students are able to receive an education from outstanding faculty on a vibrant campus home to exceptional facilities.

Whatever your plans for the future may be, I hope that your time here has helped give you the knowledge, experience and confidence that you will need to excel in every aspect of your life.

The goal of higher education is not confined to academic achievement alone; it is also intended to draw from within you those essential qualities that make each of us an educated, well-rounded individual – and a good citizen. That is one of the simplest, but most important titles we can merit in life and I know each of you will exemplify it, every day. You are a class – and a generation – who will go on to do extraordinary things.

Please enjoy yourselves today and celebrate the honor and distinction that you have earned. And whatever path you choose, I hope you will always carry with you the very fondest memories of your days here at the University of Connecticut. Remember: you are students today, but Huskies forever.

Congratulations and very best wishes,

COMMENCEMENT NOTES

Commencement Day at the University of Connecticut is a time of ceremony and pageantry, embracing traditions dating back to medieval times.

The University of Connecticut was founded as the Storrs Agricultural School in 1881 when the General Assembly accepted a gift of money and land from Charles and Augustus Storrs, natives of Mansfield. In 1893 when it became a land-grant college and officially opened to women, the name was changed to Storrs Agricultural College. As the mission of the institution grew, its name was changed in 1899 to Connecticut Agricultural College, and in 1933 to the Connecticut State College. At first a small but vigorous college with limited undergraduate offerings in agriculture, home economics and mechanical arts, with the development of a university program it became The University of Connecticut in 1939. The Graduate program began in 1935, and in 1949 the University awarded its first doctoral degrees. The regional campuses were established in 1946 to accommodate the influx of veteran students. Today, the University is made up of fourteen different schools and colleges. Through its administrative Divisions, Institutes, and Centers, the University is a Land Grant and Sea Grant College and a Space Grant Consortium Institution, privileged to serve the citizens of the State of Connecticut, and beyond.

Enormous expansion has taken place over the years together

with increased enrollment. Today, the University has an enrollment of over 32,257 students. At Storrs, there are over 19,133 undergraduates and more than 8,279 graduate students, representing some 106 nations.

This May, the University will award over 9,312 degrees. Of these, approximately 6,496 will be Bachelor's degrees, 1,876 Master's degrees, 106 Juris Doctor degrees, 93 Master of Laws degrees, 92 Doctor of Pharmacy degrees, 40 Doctor of Dental Medicine degrees, 92 Doctor of Medicine degrees, 6 Doctor of Musical Arts degrees, 8 Doctor of Audiology, 5 Doctor of Education degrees, 21 Doctor of Nursing Practice degrees, 5 Doctor of Physical Therapy degrees, and 397 Doctor of Philosophy degrees. Also to be awarded are 55 diplomas in Professional Education and 20 Associate's degrees in the two-year Ratcliffe Hicks School of Agriculture.

The Commencement Ceremony, because of the large number of graduates, is divided into separate exercises, by college or school. The Schools of Dental Medicine and Medicine, located in Farmington, and the School of Law, located in Hartford, hold their own exercises. The Commencement procession in each of the exercises at Gampel Pavilion in Storrs is heralded by the ceremonial trumpets, acquired especially for the University's commencement.

The Academic Procession is led by the Bearer of the Mace, followed by the faculty. The University Marshal, identified by her Baton, follows the President, together with the speaker, the Board of Trustees, vice-presidents, deans, and other University officials. The Mace is presented at the center of the stage while members of the platform party enter and take their places. Once the Mace is placed on the stand, it signals the beginning of the ceremony.

The Academic Gowns, Hoods and Regalia represent more than elegance or colorful attire. Academic caps and gowns continue a tradition which reaches far back into the early days of the oldest universities of the Middle Ages. The early European universities were founded by the church; the students, being clerics, were obliged to wear prescribed gowns and caps at all times. Caps and gowns were once common forms of clothing and were retained by the clergy when the laity adopted more modern dress. Hoods are lined with the official color of the college or university which conferred the degree. The velvet edging of the hood varies in length for bachelors, masters, and doctoral degrees. The color represents the appropriate degree. The tassel for the Bachelor's and Master's degree may be of color distinctive to the degree, and the tassel for the doctoral degree may be made of gold thread. The gown and hood of the University Marshal were made specifically for University ceremonies in the official colors of national flag blue and white. The Processional Marshals wear blue velvet "beefeater" berets.

The Mace is presented at all academic ceremonies. In medieval times maces were weapons of warfare, but today a mace is "a staff borne by, or carried before, a magistrate or other dignitary as an ensign of his authority." It is the emblem and symbol of the President's authority to administer the University. This mace was first used at the Inauguration of President Homer D. Babbidge, Jr. on October 20, 1962. It was designed by Nathan Knobler, former head of the Department of Art. The University's early seal, executed in beautiful wood carving, appears on both faces. A penny dated 1881 is affixed to it, to commemorate the date of the University's founding.

The Baton, carried by the University Marshal, was specifically designed for ceremonial activities at The University of Connecticut and was first used at the Commencement in 1968. The Office of Marshal can also be traced back to the medieval period, and the Baton is a symbol of the Marshal's authority. This Baton has silver mountings and is surmounted by a representation of the University's former seal in enamel, which itself incorporates the coat of arms of the State of Connecticut. The University Marshal, carrying the Baton, follows the Mace

Bearer as she leads the academic procession into and out of the place of ceremony.

The Silver Collar/Medallion, worn by Susan Herbst, President, was first used in 1964, at the time of the University's Silver Anniversary. Each link on the collar represents one of the University's Schools or Colleges and consists of a cloisonné circle engraved with an appropriate design for the particular school and enameled with its traditional school or college colors. Hanging from the chain is a large silver medallion containing the University's early seal.

The Awarding of Degrees at the University of Connecticut is accomplished by a threefold process. First, the candidates for degrees of each respective school or college are presented by the University Marshal. The candidates proceed to the front, receive their diploma covers, are congratulated by their administrative officers, and return to their seats. Second, the School or College Marshal then officially presents the candidates to the Dean who acknowledges the candidates and declares the appropriate degree. Third, when all candidates have been duly presented, the President of the University (or the highest ranking official of the University in attendance) formally confers the appropriate degree. This is accomplished verbally at the time that she speaks the words:

"By virtue of the authority vested in me by the Trustees of The University of Connecticut, and in accordance with the procedures and regulations of the University, I confer upon you the Associate's Degree, appropriate Bachelor's Degree, Master's Degree, Sixth Year Diploma, or degree of Doctor for which you have been presented at this One Hundred and Fortieth Commencement of The University."

The Recessional of the officials and faculty is once again led by the Mace Bearer and University Marshal. The graduates, along with the audience, are requested to remain seated until the recessional is concluded.

Out of respect and courtesy to all graduates, participants and guests are requested to remain in their seats until the ceremony is concluded.

The flowers displayed during the ceremonies are from the University's Horticulture Club.

ACADEMIC HONORS

University Scholar

The University Scholar designation is the highest scholastic honor at the University. The individualized undergraduate programs of these students, which in some cases include work toward a graduate degree, are supervised by faculty committees. Up to thirty students are selected as University Scholars in the junior year. Candidates for the University Scholar designation wear medals on gold and blue ribbons at the Commencement exercises.

Honors Scholar

Honors Scholars are outstanding students who complete intensive two- or four-year programs, including Honors courses of unusual breadth and depth. Honors requirements include a senior thesis in the major field. Candidates for the Honors Scholar designation wear medals on blue and white ribbons at the Commencement exercises.

Please Note: An asterisk () after a graduate's name indicates that they are a candidate for dual degrees.*

LATIN HONORS

In order to meet Commencement program printing deadlines, the Undergraduate candidates listed in the Commencement program include candidates with expected graduation dates of August 2018 through August 2019.

The University will base candidates' Latin honors (cum laude, magna cum laude, and summa cum laude), as indicated in the Commencement program, on their cumulative grade point averages (GPA) as calculated at the time of printing. Candidates' diplomas and official transcripts will reflect the actual Latin honor earned, if any, based on their complete academic record (through and including their final semester).

LAU = Cum Laude
MAG = Magna Cum Laude
SUM = Summa Cum Laude

Note: Because final semester grades are processed after Commencement activities, identification of Latin Honors in the University's Commencement Program are tentative and unofficial, pending the submission and calculation of all final grades for the graduate's final semester. There is no guarantee that the listed students will actually receive the honors once final grades are recorded.

Joseph C. Schwantner is a Pulitzer Prize winning (*Afertonos of Infinity* - 1979) American composer who started his musical career at a young age with classical guitar. He holds degrees from the Chicago Conservatory and Northwestern University and has received numerous awards and Grammy nominations. He has served in a number of faculty positions and has been at Yale University since 1999. Known as a “gifted orchestral

colorist” he is one of our nation’s most prominent composers known for his eclectic style reminiscent of “French Impressionists, African drumming, and minimalism.” His commissions include *Memories Embrace* for the 75th anniversary National Symphony Orchestra and *Percussion Concerto #2* for the 50th Anniversary of Percussive Arts Society and the Indianapolis Symphony Orchestra.

THE GRADUATE SCHOOL COMMENCEMENT PERFORMANCE
(MASTERS CEREMONY)

“CATENATION”
World Premiere
Composed by Roger Briggs, Student of Joseph Schwantner

I first met Joe Schwantner in 1975 as a student at the Eastman School of Music. I knew after our first lesson that he was an exceptional teacher. I left that lesson thinking about music in ways I had never before imagined. He gave me no answers. He made observations and asked many questions I had never considered. Guess who had to answer them?

Then I heard his music. *In Aeternum*. My mind and music were forever altered. It was no surprise that he was awarded the Pulitzer Prize. We all waited in anticipation for the next Schwantner piece. We knew something very different, very serious, and very special was unfolding. Then his beautiful chamber work, *Sparrows*, once again changed everything. Here was some of the most beautiful, expressive music I had ever heard— from any century or style period.

When asked by the University of Connecticut to write a short work for this occasion, I knew instantly it had to be a celebration of Joe Schwantner’s five monumental works for Wind Ensemble.

Catenation is a series of interconnected musical references to these wind works. I chose to reference a short passage or two from these works and follow them with my own developments and variations. In addition, my original music functions to “tie seams together”. The most difficult decisions were, of course, eliminating so much of his great material for the sake of coherency and continuity.

This work is dedicated to Joseph Schwantner with admiration, deep appreciation, and love.

Joe Courtney

Congressman Joe Courtney was elected in 2006 to represent the Second Congressional District of Connecticut in the U.S. House of Representatives. He serves on the House Armed Services Committee and the House Education and Labor Committee.

Congressman Courtney is Chairman of the House Armed Services Subcommittee on Seapower and Projection Forces. According to a review by the House Historian's Office, he is the first known member from Connecticut to lead a naval oversight panel in the House of Representatives since 1873, when Stephen W. Kellogg of Waterbury served as Chair of the Committee on Expenditures in the Navy Department in the 42nd Congress (1871-1873). In addition, he co-chairs the bipartisan Congressional Shipbuilding Caucus, along with Rep. Rob Wittman of Virginia. As a member of the House Education and Labor Committee, he serves on the Health, Employment, Labor and Pensions subcommittee, as well as the Higher Education and Workforce Training subcommittee.

Congressman Courtney has enjoyed a close relationship with the University of Connecticut since being elected to Congress in 2006. As a senior member of the House Education and Labor Committee, he has worked closely with UConn students, faculty and members of the administration on issues ranging from college and graduate education affordability, access to quality health care, immigration policy, cybersecurity, and more. He has also worked to help secure a wide variety of federal grant funding opportunities for the University.

Since his swearing-in, Congressman Courtney has distinguished himself as a tireless advocate for college access and affordability. He has introduced the Bank on Students Emergency Loan Refinancing Act, which would allow borrowers with high interest rates on existing student loans in both the public and private markets to refinance to lower interest rates, as well as the Understanding the True Cost of College Act, which would help students and their families gain more information about their financial aid options for higher education, and a truer picture of actual college costs. He has

also introduced legislation that would prevent an increase in Stafford student loan rates for undergraduate students, and has supported a host of other bills in Congress aimed at increased assistance for college students through Pell grants and student loans. In 2011, Congressman Courtney was chosen by the American Association of University Professors as the Henry T. Yost Legislator of the Year, an award given to a member of Congress who champions higher education issues.

Congressman Courtney is dedicated in service to our nation's veterans, and to our men and women in uniform. He successfully fought to expand the Montgomery GI Bill for post-9/11 veterans and their families, and led the fight to extend TRICARE benefits to dependents under age 26. Congressman Courtney partnered with late Senator John McCain (R-Ariz.) to introduce the Post-9/11 Troops to Teachers Enhancement Act to help members of the military transition into the teaching profession. In recognition of his efforts on behalf of veterans, Congressman Courtney has been awarded the Connecticut National Guard's highest honor, the Meritorious Service Award. He has also earned recognition from veteran's organizations, including the American Legion and Veterans of Foreign Wars, which named him Legislator of the Year in 2009.

Dedicated to preserving our green space and protecting the environment, Congressman Courtney introduced and won passage of a law that designated the Eightmile River in East Haddam, Connecticut as a part of the National Wild and Scenic Rivers System. Thanks to his efforts, this pristine and scenic watershed will be preserved for generations to come. Most recently, in February of 2019, the House of Representatives passed his legislation designating the Wood-Pawcatuck Watershed, in southeastern Connecticut and southern Rhode Island as part of the National Wild and Scenic Rivers System.

Before serving in the House of Representatives, Joe Courtney represented the citizens of Vernon in the Connecticut General Assembly from 1987 to 1994. During this tenure, then state-Rep. Courtney served as House Chairman for both the Public Health and Human Services Committees.

Richard Lublin

After graduating from Cornell Law School, Richard Lublin was admitted to the Ohio State Bar Association in 1964 and the Connecticut Bar Association in 1965. He was admitted to practice before Connecticut's U.S. District Court in 1969, the U.S. District Court for the Southern District of Florida in 1975 and the U.S. Court of Appeals for the Fifth Circuit in 1975. For over 30 years, Richard was one of Connecticut's most renowned litigators. He was involved in some of the state's most noteworthy cases and was a founding partner of a prestigious Hartford area law firm, which had 22 practicing attorneys. During his tenure as a member of the Hartford County Bar Association, he served as chair of the ethics committee. He served two terms on the state Board of Pardons.

After retiring as an attorney in 1995, Mr. Lublin pursued his passion for the arts and built an impressive second career in television and film. He often specialized in roles that related to the law, playing an attorney in the television series *The Practice* and *Ally McBeal*, and later a judge on *Law & Order*. Supporting roles in other top television series followed: *Chicago Hope*, *Married with Children*, *Frasier*, *Rescue Me*, and HBO's *Luck*. In 2007, Mr. Lublin acted alongside Oscar winners Philip Seymour Hoffman and Marissa Tomei and Oscar nominees

Ethan Hawke and Albert Finney in the acclaimed film *Before the Devil Knows You're Dead*, directed by Sidney Lumet. In 2018, he appeared in the film *The Land of Steady Habits*, starring Connie Britton and Edie Falco, and written and directed by Nicole Holofcener. As a professional actor, Mr. Lublin is a member of the Screen Actors Guild and American Federation of Television and Radio Artists (SAG-AFTRA).

Throughout his career, Mr. Lublin has sought to give back to society through philanthropy. Mr. Lublin has been a major donor to UConn since 1983, primarily supporting UConn Health and cancer research. He and his late wife, Jane, were awarded the Carole and Ray Neag Medal of Honor in 2014 for their remarkable contributions to UConn Health and the field of medicine. Outside the health sciences, the Lublins have made a significant commitment to support undergraduate scholarships for students in Storrs.

Mr. Lublin's philanthropy and advocacy for cancer research is commendable. His unconventional bridging of two disparate careers in the Law and the Arts is equally impressive. Mr. Lublin represents what can be achieved with drive, fortitude, and imagination.

Dr. Indrajeet Chaubey

Dr. Indrajeet Chaubey was appointed Dean of the College of Agriculture, Health, and Natural Resources on March 1, 2019. He also serves as the Director of the Connecticut Cooperative Extension System and the Storrs Experiment Station. He came to UConn from Purdue University where he enjoyed a distinguished career in teaching, research, and administration for more than 12 years. At Purdue, he held a number of positions including Associate Dean and Director of International Programs in the College of Agriculture, Head and Professor in the Department of Earth, Atmospheric, and Planetary Sciences, and Professor in the Department of Agricultural and Biological Engineering. As the Associate Dean and Director of International Programs in Agriculture at Purdue University, Dr. Chaubey was responsible for leading and coordinating international activities in the College of Agriculture to implement international programs that encompass activities throughout the entire food, agriculture, and natural resources systems. He worked closely with faculty, national and international agencies, and private foundations to obtain funding and to facilitate international development and capacity building projects.

Dr. Chaubey's research is focused on improving water quality and watershed management by integrating field data collection and mathematical modeling, and developing simulation models and tools that will guide policy decision makers, watershed managers, conservation specialists and farmers. Dr. Chaubey is

unique in his integration of simulation modeling and innovative field research to improve our understanding of various rainfall-runoff and pollutant transport processes at field, stream reach and watershed scales. Dr. Chaubey has led efforts nationally and internationally in quantifying how land use changes, agricultural intensification, and urbanization will impact water availability, water quality, and ecosystem services. His research improves watershed management decisions so that resource allocations and resulting water quality improvements can be optimized.

Dr. Chaubey is a prolific author. He has published more than 475 research articles, including more than 140 peer reviewed journal articles and 190 technical papers in various conferences, and has given more than 60 invited presentations at various regional, national, and international conferences. He has won numerous honors and awards including New Holland Young Researcher Award, ADS/Hancor Soil and Water Conservation Award, Purdue Agricultural Research Award, Purdue University Faculty Scholar, Seed for Success Award, and Outstanding Research Award. He is a Fellow of the American Society of Agricultural and Biological Engineers and a Fellow of Indian Society of Agricultural Engineers. He has served as the Principal Investigator or Co-Investigator on 55 research projects totaling more than \$40 million. He has directed the M.S./Ph.D. work of 30 graduate students at the University of Arkansas and Purdue University.

John Fodor is the Interim President and CEO of the University of Connecticut Foundation, working closely with the University President and the UConn Foundation Board of Directors to continue driving fundraising success for the Foundation.

He previously retired from the investment firm The Capital Group/ American Funds after twenty-two years of service where he served as a Partner, Board of Director and Executive Vice President of Global Distribution.

While at The Capital Group, John served in many leadership roles both domestically and internationally helping it to become one of the world's largest investment managers. He was a founding member of the groups' Institutional Retirement Plan efforts, eventually leading the group from start-up to one of the most successful retirement plan efforts in the financial services industry. He went on to lead North American Distribution to record sales in excess of \$200 billion per year. Among many other notable efforts, he spent the later part of his career at Capital helping it expand internationally in both the European and Asian markets. After logging over 5 million travel miles, he decided to retire from the firm in July of 2014.

John is a 1985 Graduate of the University of Connecticut and earned a Bachelor of Arts in Economics. He continues to

remain actively involved at UConn serving on the UConn School of Business Advisory Cabinet and is a frequent guest lecturer and speaker. In addition, he is a graduate of the Harvard Business School's Executive Leadership in Financial Services Program, the Executive Leadership Immersion Program at The Kellogg Business School at Northwestern University, and the Talent Management Institute at the Keenan Business School at the University of North Carolina Chapel Hill.

John is still active in the business community as an investor, educator and consultant. He has helped to finance several start-up businesses that include Latitude Beverages, recently named to The Boston Business Journal's "Fast 50" fastest growing businesses list. In his most recent venture, he along with his long time UConn college mate have co-founded NextGen Dental Management, an innovative investment holding and management company for the dental industry.

Throughout his career, he has been involved with numerous non-profit organizations and educational institutions. He currently sits on The Board of Trustees of The Foundation for Financial Planning as well as The Southborough Community Foundation and is President of his own foundation, The John and Sally Fodor Family Foundation.

Karissa Niehoff serves as the first female executive director of the National Federation of State High School Associations (NFHS). NFHS stands as the nation's leadership organization for high school sports and performing arts activities that today reach more than 19,000 high schools and 12 million participants in high school activity programs across the United States.

Niehoff began her career as a physical education instructor at Greenwich (Conn.) High School in 1989, going on to serve as a personal wellness teacher, athletic director, assistant principal, and principal at the middle and high school levels, in addition to coaching a champion high school field hockey team, as well as volleyball, softball, basketball, and track. Most recently, she led the Connecticut Association of Schools-Connecticut Interscholastic Athletic Conference as executive director, from 2010 to 2018.

A 2016 recipient of the Neag School Alumni Board's Distinguished Alumna Award, Niehoff has a distinguished record of leadership and active service across a broad range of education, coaching, and athletic administration roles. An advocate not only for children, but also for those responsible for educating them, she has numerous leadership and educator excellence awards to her name. She is a member of the USA

Football Board of Directors and has served on the Board of Directors for NFHS, on the United States Field Hockey Association Board of Ethics, and as the field hockey program leader at the International Youth Camp during the 1996 Olympic Games in Atlanta. Niehoff also served on the Education Committee of the United States Olympic Committee, including acting as U.S. delegate to International Olympic Academies in Greece and Canada, and as co-founder of the national Passing The Torch Academy for Youth Sport Leadership.

An accomplished athlete herself, Niehoff competed during high school in basketball, track and field, and in the Junior Olympics for field hockey. She played Division I field hockey at Brown University and the University of Massachusetts. Today, she is an inductee of the New Agenda Northeast Women's Hall of Fame.

Niehoff earned a bachelor's degree in physical education from the University of Massachusetts, a master's degree in school health education from Southern Connecticut State University, and a sixth-year degree in educational leadership from Central Connecticut State University. She received her doctorate in educational leadership from UConn's Neag School of Education in 2010.

William Julius Wilson

William Julius Wilson is Lewis P. and Linda L. Geyster University Professor at Harvard University. He is one of only 25 University Professors, the highest professional distinction for a Harvard faculty member. After receiving the Ph.D. from Washington State University in 1966, Wilson taught sociology at the University of Massachusetts at Amherst, before joining the University of Chicago faculty in 1972. In 1990, he was appointed the Lucy Flower University Professor and director of the University of Chicago's Center for the Study of Urban Inequality. He joined the faculty at Harvard in July 1996.

Wilson is a recipient of the 1998 National Medal of Science, the highest scientific honor bestowed in the United States (and only the second sociologist to receive the honor); and was awarded the Talcott Parsons Prize in the Social Sciences by the American Academy of Arts and Sciences in 2003; the Daniel Patrick Moynihan Prize by the Annals of the American Academy of Political and Social Science in 2013; the Robert and Helen Lynd Award for Distinguished Career Achievement by the Community and Urban Section of the American Sociological Association in 2013; the WEB Du Bois Career of Distinguished Scholarship Award by the American Sociological Association in 2014, the highest award bestowed by the ASA; and the 2017 SAGE-CASBS Award by the Center for Advanced Study in the Behavioral Sciences.

Past President of the American Sociological Association, Wilson has received 46 honorary degrees, including honorary doctorates from Yale, Princeton, Columbia, the University of Pennsylvania, Northwestern, Johns Hopkins, Dartmouth, and the University of Amsterdam in The Netherlands. A MacArthur Prize Fellow from 1987 to 1992, Wilson has been elected to the National Academy of Sciences, the American Academy of Arts and Sciences, the American Philosophical Society, the National Academy of Medicine (formerly the Institute of Medicine), the American Association for the Advancement of Science, the National Academy of Education, and the British Academy. He is the author of numerous award-winning publications including *The Declining Significance of Race* (1978, 1980, 2012), winner of the American Sociological Association's Sydney Spivack Award;

The Truly Disadvantaged (1987, 2012), which was selected by the editors of *The New York Times Book Review* as one of the 16 best books of 1987, and received *The Washington Monthly* Annual Book Award, the Society for the Study of Social Problems' C. Wright Mills Award, and the American Political Science Association's Aaron Wildavsky Enduring Contribution Award; *When Work Disappears: The World of the New Urban Poor* (1996), which was selected as one of the notable books of 1996 by the editors of *The New York Times Book Review*, and received the Sidney Hillman Foundation Award and the American Political Science Association's Aaron Wildavsky Enduring Contribution Award.

Other honors granted to Wilson include the Seidman Award in Political Economy (the first and only non-economist to receive the Award); the Golden Plate Achievement Award; the Distinguished Alumnus Award, Washington State University; the American Sociological Association's Du Bois, Johnson, Frazier Award (for significant scholarship in the field of inter-group relations); the American Sociological Association's Award for Public Understanding of Sociology; the Burton Gordon Feldman Award ("for outstanding contributions in the field of public policy"), Brandeis University; the Martin Luther King, Jr. National Award (granted by the Southern Christian Leadership Conference, Los Angeles); the *Diverse: Issues in Higher Education's* John Hope Franklin Award; the Everett Mendelsohn Excellence in Mentoring Award, Harvard University; and the Anisfield-Wolf Book Award for Lifetime Achievement in Nonfiction. He was designated a Walter Channing Cabot Fellow at Harvard University for 2009-10. And in 2012 the Inequality, Poverty, and Mobility Section of the American Sociological Association renamed its Early Career Award as the William Julius Wilson Early Career Award.

Professor Wilson has been a member of numerous national boards and commissions, and he was previously the Chair of the Board of the Center for Advanced Study in the Behavioral Sciences and of the Russell Sage Foundation, and a member of President Clinton's Commission on White House Fellowships from 1994 to 2001.

David C. Page, MD

David Page, MD, is the Director and President of the Whitehead Institute for Biomedical Research, Professor of Biology at the Massachusetts Institute of Technology (MIT), and an Investigator at the Howard Hughes Medical Institute. A graduate of Swarthmore College, Page earned his MD from Harvard Medical School and the Harvard-MIT Health Sciences and Technology program. He joined the Whitehead Institute, as the first Whitehead Fellow, in 1984.

Page's laboratory explores fundamental differences between males and females in health and disease, both within and beyond the reproductive tract. The Page lab recently discovered that XY and

XX sex chromosomes account for subtle differences in the molecular biology of male and female cells throughout the body.

His honors include a MacArthur Prize Fellowship, Science magazine's Top Ten Scientific Advances of the Year (1992 and 2003), the Francis Amory Prize of the American Academy of Arts and Sciences, and the March of Dimes Prize in Developmental Biology. He is a Member of the National Academy of Sciences, the National Academy of Medicine, and the American Academy of Arts and Sciences.

UNIVERSITY OF CONNECTICUT
GRADUATE SCHOOL, SCHOOL OF DENTAL MEDICINE AND SCHOOL OF MEDICINE
BOARD OF DIRECTORS FACULTY RECOGNITION AWARD RECIPIENT

Jacqueline "Kiki" Nissen, M.D., FACP

The 2019 UConn Health Board of Directors Faculty Recognition Award recipient is Jacqueline "Kiki" Nissen, M.D., FACP.

Dr. Nissen serves as UConn School of Medicine's senior associate dean for faculty affairs and associate dean for graduate medical education. As an internist she also provides primary care to patients as a professor in the Department of Medicine at UConn Health.

UConn has been the home to Dr. Nissen's medical education since 1985 when she began medical school and her entire career in medicine. She completed medical school at UConn in 1989, her UConn internal medicine residency training in 1994 serving then as chief medical resident, and joined the faculty in 1996 as an internal medicine physician.

"My journey of success at the University of Connecticut stems from my desire and commitment to make a daily difference in academics and healthcare," said Dr. Nissen. "I have always seen myself as part of the bigger team here at UConn Health and have never stopped dreaming about new ways to make things better for the organization and its people."

Nissen added, "This amazing journey will continue, as I see my success in the context of service to my patients, trainees, the institution, and Connecticut. I made a decision early in my career to stay in Connecticut, raise a family, and make a difference at UConn Health in one of the most rewarding professions - academic medicine and healthcare."

As associate dean for graduate medical education, Dr. Nissen oversees more than 60 sponsored graduate medical education programs and 670 residents and fellows annually. She also is a

strong advocate for medical education as a top priority at UConn, and on the regional and national stage.

"We are so thankful for Kiki's longstanding service to UConn School of Medicine, and our countless students, residents, fellows, faculty, and staff across UConn Health the last three decades. She is a highly regarded practicing internist with a sustained record of academic leadership and has served the institution effectively well," said Dr. Bruce T. Liang, dean of UConn School of Medicine. "Testament to Dr. Nissen's leadership is our medical school's very large and successful residency and fellowship programs."

"Dr. Nissen is a well-respected clinician and tireless advocate for medical education and faculty development," said Dr. Cheryl Oncken, chair of the Department of Medicine at UConn School of Medicine. "She has dedicated her career to UConn and academic medicine. As a result we are all the better for it and have excelled as an institution under her leadership."

Dr. Nissen is board-certified in internal medicine. She previously served as the vice chair of the Department of Medicine and Division Chief for General Internal Medicine. She has received several awards for her excellence in clinical care, teaching and academic leadership, along with outstanding evaluations from the resident physician trainees and the faculty she advises, develops and mentors.

"To be recognized by UConn Health's Board of Directors is very humbling and I am thankful to UConn for the last nearly 35 years of exciting cutting-edge education and medicine opportunities and the privilege of training generations of physicians."

THE GRADUATE SCHOOL

COMMENCEMENT SPEAKERS (DOCTORAL CEREMONY)

Sandra M. Chafouleas

Sandra M. Chafouleas is a Professor of Educational Psychology and Board of Trustees Distinguished Professor at the University of Connecticut. Dr. Chafouleas received her doctorate in School Psychology from Syracuse University in 1997 and has served in Associate Dean positions in The Graduate School and the Neag School of Education. Dr. Chafouleas has successfully mentored 6 postdoctoral scholars and 19 doctoral students, many of whom moved on to hold tenure track positions across the country. She is well known in her field as a mentor to graduate students and has actively sought to include them in professional activities that guide their

research. Her outreach to graduate students has provided “profound and enduring impacts” on careers and served as “inspiration” when there wasn’t enough time in the day or when things were not going as planned. Advisees speak to her finding their inner academic and introduced them to a life in academia and research they didn’t realize they wanted. Her mentorship of graduate students is purposeful, direct, and provides “scaffolding” to future endeavors. She not only contributes scholarly writing, but to the future of the school psychology profession in her work mentoring graduate students.

Semin Park

Semin Park is a Ph.D. candidate in Management at the University of Connecticut. Her primary area of interest is relational dynamics within and between teams, in which she has conducted applied research on multi-level models of effectiveness at the individual, team, and multi-team system levels. Park is working on her dissertation, a multi-method experimental study of the conflict dynamics in a simulated mass casualty incident emergent medical response, which theoretically and empirically unpacks the emergence and evolution of conflict relations within and between teams, and their effects on critical task outcomes. This dissertation is recognized as the highest ranked dissertation proposal from the society for industrial and organizational psychology (Lee Hakel Award). Her research has been published in leading peer-

reviewed academic journals, including the *Academy of Management Review*, *Organizational Research Methods*, and *American Psychologist*. In addition to her excellency in research, Park has also been stellar in the classroom. She has been received an average student rating of 4.97 out of 5 across multiple sections and was awarded the school-wide outstanding Ph.D. student teaching award as well as the Outstanding Graduate Student Life Award. Park holds both a B.A. (Business Administration) and a M.S. in Organizational Behavior & Human Resource management from the Seoul National University. She will be joining the Tippie College of Business at the University of Iowa as an assistant professor in the fall of 2019.

RECESSIONAL

COMMENCEMENT

SCHOOL OF LAW COMMENCEMENT SPEAKER

Donald B. Verrilli

Donald B. Verrilli, Jr. served as Solicitor General of the United States from June 2011 to June 2016. During that time he argued dozens of cases before the U.S. Supreme Court and was responsible for representing the United States government in all appellate matters before the High Court and in the courts of appeals.

Mr. Verrilli's landmark victories include his successful advocacy in defense of the Affordable Care Act in *National Federation of Independent Businesses v. Sebelius* and *King v. Burwell*; his successful advocacy for marriage equality in *Obergefell v. Hodges* and *United States v. Windsor*; and his vindication of federal immigration authority in *Arizona v. United States*. He also achieved important victories in two patent cases, *Alice Corp. v. CLS Bank* and *Association for Molecular Pathology v. Myriad Genetics*, in a case vindicating the president's foreign affairs authority in *Zivotofsky v. Kerry*, and in numerous cases involving civil rights, women's rights and other matters of national importance.

In addition to these matters, Mr. Verrilli's U.S. Supreme Court arguments have included cases involving antitrust, copyright, telecommunications, the environment, the First Amendment, the Equal Protection and Due Process Clauses of the Fourteenth Amendment, the separation of powers, criminal law and other federal constitutional and statutory matters.

Before serving as Solicitor General, Mr. Verrilli served as Deputy White House Counsel, and previously as Associate Deputy Attorney General in the U.S. Department of Justice. In those positions, he counseled President Obama, Cabinet secretaries and other senior government officials on a wide range of legal issues involving national security, economic regulation, domestic policy and the scope of executive and administrative authority.

Before joining the government, Mr. Verrilli spent two decades in private practice representing companies in their most high stakes matters, particularly in the areas of media and entertainment, telecommunications and First Amendment law, which he has taught at Georgetown Law School.

Mr. Verrilli is now a partner with Munger, Tolles & Olson, and the founder of its Washington, D.C., office. In addition to handling matters before the U.S. Supreme Court and the courts of appeals, Mr. Verrilli's practice focuses on representing and counseling clients on multi-dimensional problems, where litigation, regulation and public policy intersect to shape markets and industries in our evolving economy.

THE GRADUATE SCHOOL

The parenthetical indication of a conferral date following a degree recipient's name signifies confirmed completion of degree requirements. If no conferral date is indicated, completion of degree requirements could not be confirmed at press time. Conferral of a degree is contingent upon verification by the Graduate School that a student has completed all requirements.

DOCTOR OF PHILOSOPHY

Sharief Nasr Abdel-Razeq, in Electrical Engineering: Information, Communication, Decision, and Biosystems (August 24, 2018)
Major Advisors: Rajeev Bansal, Shengli Zhou
Doctoral Dissertation: Non-Orthogonal Multiple Access in Cooperative Relay Networks Based on Statistical Channel State Information

Mitali Adlakha, in Biomedical Science: Molecular Biology and Biochemistry
Major Advisor: Sandra K. Weller
Doctoral Dissertation: HSV-1 Immediate Early Protein ICP22 is a J-like Protein

Lhacene Adnane, in Electrical Engineering: Electronics and Photonics (December 16, 2018)
Major Advisor: Helena Silva
Doctoral Dissertation: High Temperature Characterization of Ge₂Sb₂Te₅ Thin Films for Phase Change Memory Applications

Sherry Su Agabiti, in Pharmaceutical Sciences: Medicinal and Natural Products Chemistry (December 16, 2018)
Major Advisor: Andrew Wiemer
Doctoral Dissertation: Elucidating the Mechanisms of Apoptosis Induced by a Novel Geranylgeranyl Diphosphate Synthase Inhibitor in T-cell Acute Lymphoblastic Leukemia

Garvit Agarwal, in Materials Science and Engineering
Major Advisor: Avinash Dongare
Doctoral Dissertation: Mesoscale Modeling of Defect and Damage Evolution in Lightweight Metallic Materials under Shock Loading Conditions

Anees Ahmed, in Physics (August 24, 2018)
Major Advisor: Gerald V. Dunne
Doctoral Dissertation: Resurgence and Large N: the Gross-Witten-Wadia and Gross-Neveu Models

Mostafa Ahmed Hazem Ahmed Hassan, in Civil Engineering: Structural Engineering (August 24, 2018)
Major Advisor: Kay Wille
Doctoral Dissertation: Ultra-High Performance Fiber Reinforced Concrete Behavior under Impact Loading

David Matthew Alexandro, in Educational Psychology: Research Methods, Measurement, and Evaluation (December 16, 2018)
Major Advisor: Christopher H. Rhoads
Doctoral Dissertation: Aiming for Success: Evaluating Statistical and Machine Learning Methods to Predict High School Student Performance and Improve Early Warning Systems

Abdou Yaseen Alzubaidi, in Mathematics (December 16, 2018)
Major Advisors: Yung S. Choi, Jeffrey Connors
Doctoral Dissertation: Numerical Computation of Traveling Wave and Standing Pulse Solutions to FitzHugh-Nagumo Equations in 2D

Reza Amin, in Mechanical Engineering: Dynamics and Control
Major Advisor: Savas Tasoglu
Doctoral Dissertation: Multi-Layered Paper-Based Microfluidic Platform for Point-of-Care Male Fertility Test

Jankiben Vinodkumar Andhariya, in Pharmaceutical Sciences: Pharmaceutics
Major Advisor: Diane J. Burgess
Doctoral Dissertation: Development of In Vitro - In Vivo Correlation of Q1/Q2 Equivalent Parenteral Microsphere Drug Products

Murali Anuganti, in Chemistry (August 24, 2018)
Major Advisor: Yao Lin
Doctoral Dissertation: Developing Surface Plasmon Resonance (SPR) Based Methods for Quantitative Analysis of Enzymatic Surface Reactions and Biological Interactions

Aidali Aponte-Aviles, in Spanish (December 16, 2018)
Major Advisors: Jacqueline Loss, Osvaldo F. Pardo
Doctoral Dissertation: Imágenes distorsionadas: El olvido en la producción cultural chilena del siglo XXI

ARMED SERVICES COMMISSION

Each year, the President of the United States, through the Secretary of Defense, grants commissions to Connecticut students in the Regular Service and in the Reserve Components.

Air Force Reserve Officer Training Corps

The following have received a commission as Second Lieutenants through the Air Force ROTC program at the University of Connecticut.

KIMBERLY CABALLERO <i>University of Rhode Island Nuclear and Missile Operations Officer</i>	JOHN ALEXANDER KOSTAL JR. <i>University of Connecticut Pilot Candidate</i>	TREVOR STEVEN SIMPSON <i>University of Connecticut Pilot Candidate</i>
KENDRA ELIZABETH CURRAN <i>University of Connecticut Logistics Readiness Officer</i>	NICHOLAS ANDREW LABBADIA <i>University of Connecticut Nuclear and Missile Operations Officer</i>	BENJAMIN DALE SWARTZELL <i>University of Connecticut Civil Engineering Officer</i>
JAMIE PATRICK GORMAN <i>University of Connecticut Remotely Piloted Aircraft Pilot Candidate</i>	ELI SCOTT MAJEK <i>University of Connecticut Pilot Candidate</i>	DANIELLE REALANI WHITTEN <i>University of Connecticut Acquisition Officer</i>
PETER KAMIANOWSKI <i>University of Connecticut Pilot Candidate</i>	AUSTIN MITCHELL MILLER <i>Central Connecticut State University Remotely Piloted Aircraft Pilot Candidate</i>	JANNA JOY WILBER <i>University of Connecticut Pilot Candidate</i>
JOSHUA TAIHYE KANG <i>University of Connecticut Intelligence Officer</i>	NOLAN JAMES RYAN <i>University of Connecticut Remotely Piloted Aircraft Pilot Candidate</i>	CHARMAGNE VERANO <i>University of Hartford Nursing Officer</i>

Army Reserve Officer Training Corps

Second Lieutenants, Active Duty, National Guard, U.S. Army Reserve

KENNETH SCOTT AIELLO <i>University of New Haven Military Police Corps</i>	RYAN SCOTT FABICH <i>University of Connecticut Military Police Corps</i>	NICHOLAS JOSEPH PARISI <i>University of New Haven Field Artillery</i>
**ANNE BARTHOLOMEW ALLEN <i>University of Connecticut Aviation Corps</i>	MICHAEL MATTHEW FAZZINO <i>University of Connecticut Corps of Engineers</i>	ERIK BENSON RAVENBERG <i>University of Connecticut Aviation Corps</i>
KYLE PATRICK BARNES <i>University of Connecticut Field Artillery</i>	BRYAN JAVIER FELIX <i>University of New Haven Military Intelligence</i>	NOEL ASHE SOSNOSKI <i>University of Connecticut Infantry</i>
**ALEXANDER MAXWELL BLOCH <i>University of New Haven Armor</i>	RYAN MICHAEL FINNIGAN <i>University of New Haven Military Police Corps</i>	KYLE DAVID STIANO <i>University of New Haven Field Artillery</i>
ALISON LEE BLUME <i>Southern Connecticut State University Medical Service Corps</i>	BRIAN AARON GOLDSTEIN <i>University of Connecticut Corps of Engineers</i>	LOREN BRITTNEY THOMPSON <i>University of Connecticut Signal Corps</i>
MEGAN KELSEY BROWN <i>University of New Haven Transportation Corps</i>	ARIEL ARTURO MACHADO PEREZ <i>University of Connecticut Chemical Corps</i>	NELSON GOULD VANDENBURGH <i>University of New Haven Ordnance Corps</i>
GIORGI CHILINGARASHVILI <i>University of Connecticut Infantry</i>	DANIEL ELY MARESCA <i>University of New Haven Military Police Corps</i>	COLIN N WALKER <i>University of Connecticut Field Artillery</i>
NATHAN REID SCOTT CLARKE <i>University of Connecticut Infantry</i>	JOHN MICHAEL MCLISTER <i>University of Connecticut Quartermaster Corps</i>	*Distinguished Military Student **Distinguished Military Graduate
KATHERINE AYJAN CLUXTON <i>University of Connecticut Nurse Corps</i>	**KEVIN PATRICK O'SULLIVAN <i>University of New Haven Military Police Corps</i>	
GENEVIEVE MARIE DENAULT <i>University of Connecticut To be assigned</i>	WESTON JAMES OGLE <i>University of New Haven Aviation Corps</i>

The official seal of the University of Connecticut depicts the ancient and mighty oak. Beautiful and sacred, the venerable oak symbolizes wisdom, longevity and hospitality. To Aristotle, the oak represented human potential.

The oak holds a special place in Connecticut's history. In a time long before statehood, the Connecticut colony's self-governing status was guaranteed by a charter issued by King Charles II of England. When, in 1687, his successor King James II attempted to reinstate the monarchy's authority, the Crown's emissary's efforts were foiled as the Royal Charter was secretly spirited to a temporary hiding place—a majestic oak in Hartford, forever after known as the Charter Oak. The oak became a symbol of freedom worldwide.

The oak has unique meaning for the University as well. In 1884, the commencement exercises of the second graduating

class of the Storrs Agricultural School were held in an oak grove on the Storrs campus. This grove, long a favorite gathering place for a variety of open-air meetings, served as the spiritual home to the growing community of scholars.

The University of Connecticut's graphic interpretation of the oak is a stylized synthesis of two acorns and three oak leaves, representing maturation, intellect and moral strength. The seal is the symbol of a large and diverse institution; it is used by all of the University's schools, colleges, regional campuses, professional schools and UConn Health. It communicates the broader mission of the University as a center for the pursuit, the creation, and the sharing of knowledge. The University of Connecticut, like the mighty oak, is rooted in a proud past and reaches toward a limitless future.
