WELCOME FROM THE PRESIDENT

Dear Friends:

It is with a mixture of happiness, pride, and confidence that I write to you on this occasion of the culmination of your years of effort and achievement at the University of Connecticut.

Many times in the past 12 months I have had reason to recall the observation of the Greek Stoic philosopher Epictetus: “Happiness and freedom begin with one principle: some things are within your control, and some are not.” This is a principle we can truly say has been affirmed for everyone in the world since the spring of 2020.

Certainly, it is a principle that was not lost on you, as you responded to events outside your control with the creativity, determination, and perseverance that came to characterize UConn during this time.

Great challenges beget great achievements, and your achievement as students here shine as brightly as any in the 140-year history of our University. You now continue your journey in the world not just prepared, but empowered: empowered by the knowledge that you have it within yourself to face any obstacle, and overcome it.

This is a special class, its ranks filled with scholars of all disciplines and leaders on issues from climate action to racial justice. One of the pleasures I look forward to in the coming years is learning of how you will apply your UConn experience to transforming our world – hopefully, learning about it from you in person, on visits back to your alma mater.

As we move closer toward a return to a semblance of life as we knew it before the pandemic, I know it will become easier to put the last year into the context of your entire time at UConn. But I also know you won't forget the lessons you drew from your time here – about the need for justice in our nation and our world; about the essential commitment to care for one another; about the things we truly cherish in life, especially the human contact that perhaps we had come to take for granted.

Where your journey leads next, only you know for sure. But regardless of where you find yourself in life, I hope you will always carry with you the fondest memories of your days here at the University of Connecticut. Remember: you are students today, but Huskies forever.

Congratulations and very best wishes,

Thomas Katsouleas

COMMENCEMENT NOTES

Commencement Day at the University of Connecticut is a time of ceremony and pageantry, embracing traditions dating back to medieval times.

The University of Connecticut was founded as the Storrs Agricultural School in 1881 when the General Assembly accepted a gift of money and land from Charles and Augustus Storrs, natives of Mansfield. In 1893 when it became a land-grant college and officially opened to women, the name was changed to Storrs Agricultural College. As the mission of the institution grew, its name was changed in 1899 to Connecticut Agricultural College, and in 1933 to the Connecticut State College. At first a small but vigorous college with limited undergraduate offerings in agriculture, home economics and mechanical arts, with the development of a university program it became The University of Connecticut in 1939. The Graduate program began in 1935, and in 1949 the University awarded its first doctoral degrees. The regional campuses were established in 1946 to accommodate the influx of veteran students. Today, the University is made up of fourteen different schools and colleges. Through its administrative Divisions, Institutes, and Centers, the University is a Land Grant and Sea Grant College and a Space Grant Consortium Institution, privileged to serve the citizens of the State of Connecticut, and beyond.

Enormous expansion has taken place over the years together

with increased enrollment. Today, the University has an enrollment of over 32,669 students. At Storrs, there are over 18,917 undergraduates and more than 8,298 graduate students, representing some 110 nations.

This May, the University will award over 9,424 degrees. Of these, approximately 6,185 will be Bachelor's degrees, 2,137 Master's degrees, 141 Juris Doctor degrees, 58 Master of Laws degrees, 79 Doctor of Pharmacy degrees, 47 Doctor of Dental Medicine degrees, 108 Doctor of Medicine degrees, 3 Doctor of Musical Arts degrees, 14 Doctor of Audiology, 14 Doctor of Education degrees, 16 Doctor of Nursing Practice degrees, 34 Doctor of Physical Therapy degrees, and 482 Doctor of Philosophy degrees. Also to be awarded are 73 diplomas in Professional Education and 33 Associate's degrees in the two-year Ratcliffe Hicks School of Agriculture.

The Commencement Ceremony, because of the large number of graduates, is divided into separate exercises, by college or school. The Schools of Dental Medicine and Medicine, located in Farmington, and the Schools of Law and Social Work, both located in Hartford, hold their own exercises. The Commencement procession in each of the exercises at Gampel Pavilion in Storrs is heralded by the ceremonial trumpets, acquired especially for the University's commencement.

The Academic Procession is led by the Bearer of the Mace, followed by the faculty. The University Marshal, identified by her Baton, follows the President, together with the speaker, the Board of Trustees, vice-presidents, deans, and other University officials. The Mace is presented at the center of the stage while members of the platform party enter and take their places. Once the Mace is placed on the stand, it signals the beginning of the ceremony.

The Academic Gowns, Hoods and Regalia represent more than elegance or colorful attire. Academic caps and gowns continue a tradition which reaches far back into the early days of the oldest universities of the Middle Ages. The early European universities were founded by the church; the students, being clerics, were obliged to wear prescribed gowns and caps at all times. Caps and gowns were once common forms of clothing and were retained by the clergy when the laity adopted more modern dress. Hoods are lined with the official color of the college or university which conferred the degree. The velvet edging of the hood varies in length for bachelors, masters, and doctoral degrees. The color represents the appropriate degree. The tassel for the Bachelor's and Master's degree may be of color distinctive to the degree, and the tassel for the doctoral degree may be made of gold thread. The gown and hood of the University Marshal were made specifically for University ceremonies in the official colors of national flag blue and white. The Processional Marshals wear blue velvet "beefeater" berets.

The Mace is presented at all academic ceremonies. In medieval times maces were weapons of warfare, but today a mace is "a staff borne by, or carried before, a magistrate or other dignitary as an ensign of his authority." It is the emblem and symbol of the President's authority to administer the University. This mace was first used at the Inauguration of President Homer D. Babbidge, Jr. on October 20, 1962. It was designed by Nathan Knobler, former head of the Department of Art. The University's early seal, executed in beautiful wood carving, appears on both faces. A penny dated 1881 is affixed to it, to commemorate the date of the University's founding.

The Baton, carried by the University Marshal, was specifically designed for ceremonial activities at The University of Connecticut and was first used at the Commencement in 1968. The Office of Marshal can also be traced back to the medieval period, and the Baton is a symbol of the Marshal's authority. This Baton has silver mountings and is surmounted by a representation of the University's former seal in enamel, which itself incorporates the coat of arms of the State of Connecticut. The University Marshal, carrying the Baton, follows the Mace

Bearer as she leads the academic procession into and out of the place of ceremony.

The Silver Collar/Medallion, worn by Thomas Katsouleas, President, was first used in 1964, at the time of the University's Silver Anniversary. Each link on the collar represents one of the University's Schools or Colleges and consists of a cloisonné circle engraved with an appropriate design for the particular school and enameled with its traditional school or college colors. Hanging from the chain is a large silver medallion containing the University's early seal.

The Awarding of Degrees at the University of Connecticut is accomplished by a threefold process. First, the candidates for degrees of each respective school or college are presented by the University Marshal. The candidates proceed to the front, receive their diploma covers, are congratulated by their administrative officers, and return to their seats. Second, the School or College Marshal then officially presents the candidates to the Dean who acknowledges the candidates and *declares* the appropriate degree. Third, when all candidates have been duly presented, the President of the University (or the highest ranking official of the University in attendance) formally *confers* the appropriate degree. This is accomplished verbally at the time that he speaks the words:

"By virtue of the authority vested in me by the Trustees of The University of Connecticut, and in accordance with the procedures and regulations of the University, I confer upon you the Associate's Degree, appropriate Bachelor's Degree, Master's Degree, Sixth Year Diploma, or degree of Doctor for which you have been presented at this One Hundred and Forty Second Commencement of The University."

The Recessional of the officials and faculty is once again led by the Mace Bearer and University Marshal. The graduates, along with the audience, are requested to remain seated until the recessional is concluded.

COMMENCEMENT ADDRESS

The Honorable Miguel Cardona '01 MA, '04 6th Year, '11 Ed.D., '12 ELP United States Secretary of Education

Secretary Cardona previously served as the Commissioner of Education in Connecticut, a position he held after being appointed by Governor Ned Lamont in August 2019. In this position, he faced the unprecedented challenge of responding to the COVID-19 pandemic and led the safe school reopening efforts in Connecticut. To do so, Secretary Cardona and his Department provided school districts with the balance of guidance, local autonomy, and oversight needed to ensure equitable and meaningful educational opportunities for students while also prioritizing public health mitigation measures. Secretary Cardona and the State of Connecticut focused on equity by arranging for student access to technology to support remote learning, helping the state become first in the nation to provide learning devices to fulfill the identified need for all students. Recognizing the increased importance of providing resources for the social-emotional health for students and staff, Secretary Cardona and his team collaborated with the Yale Center for Emotional Intelligence and other stakeholders to provide free social and emotional learning courses.

Secretary Cardona's approach to leadership in Connecticut focused on partnerships: within his Education Department; between State agencies; and with local boards, educator unions, school administrator associations, child advocates, and most importantly, students and families. He attributes his success in Connecticut in part to the strong backing of those partners, as well as support from the members of the Connecticut State Board of Education and his staff at the Connecticut State Department of Education.

Under Secretary Cardona's oversight - despite the pandemic - Connecticut launched a statewide FAFSA Data Dashboard; procured a comprehensive statewide Special Education Data System (CT-SEDS); announced the State's highest ever extended graduation rates for students with disabilities and English Learners; reached a new stipulated agreement in the landmark school integration case *Sheff v. O'Neill*, established the first

national requirement for high schools provide courses on black and Latino studies; and initiated systemic improvement protocols that can reach every corner of the state. His focus on equity and excellence for all learners has driven his work at all levels.

Secretary Cardona has two decades of experience as a public school educator from the City of Meriden. He began his career as an elementary teacher. He then served as a school principal in Meriden in 2003 where he led a school with outstanding programming for three to five-year olds, students that were bilingual, and students with sensory exceptionalities. He proudly served in this role for ten years. In 2012, Miguel won the 2012 National Distinguished Principal Award for the State of CT and the Outstanding Administrator Award from UConn's NEAG School of Education. Secretary Cardona then transitioned to lead the work of Performance and Evaluation in the district. He then assumed the role of Assistant Superintendent for Teaching and Learning, overseeing teaching, learning, and leadership alignment.

A lifelong Meriden resident, Dr. Cardona attended Meriden Connecticut Public Schools, and graduated from Wilcox Technical High School. He attended CCSU for his bachelor's degree and UConn where he completed Master's in Bilingual/Bicultural Education, Administrator Preparation Program, Doctorate in Education, and Executive Leadership Program (Superintendent) Certificate. Secretary Cardona is very active in his community, serving on several non-profit charitable organization boards of directors. He has had several articles published in AASPA Perspective, National School Boards Association, District Administration and the Scholars Strategy Network.

His greatest source of pride, however, is his family. Secretary Cardona and his beautiful wife Marissa are the proud parents of two children.

ACADEMIC HONORS

In order to meet Commencement program printing deadlines, the students listed with the University Scholar, Honors Scholar, and University Honors Laureate designations in the Commencement program include candidates with expected graduation dates of August 2020 through August 2021.

University Scholar

The University Scholar designation is the highest scholastic honor at the University. The individualized undergraduate programs of these students, which in some cases include work toward a graduate degree, are supervised by faculty committees. Up to thirty students are selected as University Scholars in the junior year. Candidates for the University Scholar designation wear medals on gold and blue ribbons at the Commencement exercises.

Honors Scholar

Honors Scholars are academically talented and highly motivated students who complete intensive two- to four-year

programs, including Honors courses of unusual depth in the major field. Honors Scholars must demonstrate engagement in their major field and complete a departmentally-approved Honors thesis/Honors capstone project. Candidates for the Honors Scholar designation wear medals on blue and white ribbons at the Commencement exercises.

University Honors Laureate

The University Honors Laureate designation recognizes breadth in Honors work, as well as engagement and involvement in a variety of communities. The University Honors Laureate designation is awarded to students who complete the requirements for the Honors Scholar designation in conjunction with additional academic and co-curricular requirements. Candidates for the University Honors Laureate designation wear medals on blue and white ribbons at the Commencement exercises.

A plus sign (+) after an Honors Scholar's name indicates that they are also a candidate for the "University Honors Laureate" designation.

Please Note:

An asterisk () after a graduate's name indicates that they are a candidate for dual degrees.*

A plus sign (+) after an Honors Scholar's name indicates that they are also a candidate for the "University Honors Laureate" designation.

LATIN HONORS

In order to meet Commencement program printing deadlines, the Undergraduate candidates listed in the Commencement program include candidates with expected graduation dates of August 2020 through August 2021.

The University will base candidates' Latin honors (cum laude, magna cum laude, and summa cum laude), as indicated in the Commencement program, on their cumulative grade point averages (GPA) as calculated at the time of printing. Candidates' diplomas and official transcripts will reflect the actual Latin honor earned, if any, based on their complete academic record (through and including their final semester).

LAU = Cum Laude
MAG = Magna Cum Laude
SUM = Summa Cum Laude

Note: Because final semester grades are processed after Commencement activities, identification of Latin Honors in the University's Commencement Program are tentative and unofficial, pending the submission and calculation of all final grades for the graduate's final semester. There is no guarantee that the listed students will actually receive the honors once final grades are recorded.

ARMED SERVICES COMMISSION

Each year, the President of the United States, through the Secretary of Defense, grants commissions to Connecticut students in the Regular Service and in the Reserve Components.

Air Force Reserve Officer Training Corps

The following have received a commission as Second Lieutenants through the Air Force ROTC program at the University of Connecticut.

LEON DERRICK BABCOCK-McINTOSH III <i>University of Connecticut Finance Officer</i>	**MATHEW BRYAN JOY <i>University of Connecticut Air Battle Manager Trainee</i>	MEAGAN MARY O'DONNELL <i>University of Connecticut Space Force Operations Officer</i>
ANDREW PHILIP CUMMINGS <i>University of Rhode Island Air Battle Manager Trainee</i>	VICTORIA ANYA LIVINGSTON <i>University of Connecticut Acquisitions Officer</i>	LUKE JOSEPH TERRANCE <i>University of Connecticut Contracting Officer</i>

The official seal of the University of Connecticut depicts the ancient and mighty oak. Beautiful and sacred, the venerable oak symbolizes wisdom, longevity and hospitality. To Aristotle, the oak represented human potential.

The oak holds a special place in Connecticut's history. In a time long before statehood, the Connecticut colony's self-governing status was guaranteed by a charter issued by King Charles II of England. When, in 1687, his successor King James II attempted to reinstate the monarchy's authority, the Crown's emissary's efforts were foiled as the Royal Charter was secretly spirited to a temporary hiding place—a majestic oak in Hartford, forever after known as the Charter Oak. The oak became a symbol of freedom worldwide.

The oak has unique meaning for the University as well. In 1884, the commencement exercises of the second graduating

class of the Storrs Agricultural School were held in an oak grove on the Storrs campus. This grove, long a favorite gathering place for a variety of open-air meetings, served as the spiritual home to the growing community of scholars.

The University of Connecticut's graphic interpretation of the oak is a stylized synthesis of two acorns and three oak leaves, representing maturation, intellect and moral strength. The seal is the symbol of a large and diverse institution; it is used by all of the University's schools, colleges, regional campuses, professional schools and UConn Health. It communicates the broader mission of the University as a center for the pursuit, the creation, and the sharing of knowledge. The University of Connecticut, like the mighty oak, is rooted in a proud past and reaches toward a limitless future.
